

SUMMER CAMP

OCEAN EXPLORERS - JULY 17th-July 21st & JULY 31st-AUGUST 4th

Monday-Sandy Shore

Sandy Shore - We'll be spending the day on the beach! How do invertebrates, fish, and birds survive in this shifting environment?

Tuesday-Kelp Connections

Kelp Connections - Did you know there are forests in the sea? We'll be exploring the holdfast all the way to the canopy!

Wednesday-Abysmmal Depths

Abysmmal Depths- How do animals survive in the ocean depths? We'll learn how scientists explore the abyss by building our own ROVs.

Thursday-Tidepooling Trek

Tidepooling Trek - How do animals survive the changing tides? We'll be exploring the rocky shore in search of answers!

Friday-Kayaking Craze

Kayaking Craze - We'll explore the different habitats found within the harbor aboard kayaks. We'll see sandy bottoms, rocky ledges and swaying kelp!

OCEAN EXPLORERS

7yrs-11yrs old / 9:00am-3:00pm

\$300 per week

or

\$75 per day

July 17th-July 21st

and

July 31st-August 4th

THE SEA Lab

SUMMER CAMP

JULY 10th-July 14th & JULY 24th-July 28th

Monday-Spineless Wonders

Spineless Wonders - We'll be learning all about invertebrates! They have no backbone but lots of fascinating features.

Tuesday-Fishy Findings

Fish Anatomy - We'll be learning all about our fishy friends! Fins and scales will rule the day.

Wednesday-Habitat Happenings

Ocean Habitats - We'll be learning about the various ocean habitats animals call home! From shifting sand to pounding waves, animals are adapted for survival.

Thursday-Beach Bash

Sandy Adventure - We'll be having some fun at our nearby sandy beach while also studying its inhabitants! The day will be filled by bird watching, digging for sand crabs and building sand castles.

Friday-Ahoy Matey

Ocean Exploration - We'll be learning about ocean exploration through a fun scavenger hunt. Campers will put their navigational skills to find their treasure!

MINI MARINERS

4yrs-6yrs old / 9:00am-1:00pm
\$200/week or \$50/day

July 10th-July 14th
&
July 24th-July 28th
